

MAD102: Test 1 Instructions

Time and Date:

- Date: 4th Oct 2024
- Time: 8:00 am to 10:00 am
- You will have 1 hour and 30 minutes to finish the exam.

Where:

- South Campus Rm. A0341

Syllabus:

- All materials (Lectures, Exercises, Practice Questions) from Week 1- Week 4

Questions/marks:

- The test will consist of two parts.
 - Part 1: 12 MCQ (1 marks each) questions..
 - Part 2: 2 Programming questions (worth 8 marks and 10 marks).
 - Once you finish your 12 mcqs, you can start doing your programming questions in visual studio code.
 - After programming in visual studio code, test your program and copy the final to blackboard
 - You will have choice for the programming questions.
 - Q13(8 Mark)
 - Q14 (10 Mark)
 - Before you start the program, you must add below details.
 - # Question Number: Q*
 - # Purpose: *****
 - **Important: You must mention the Question number**
- The test will be for 30 marks approximately.

Important notes about taking the exam:

- The time allocated for the test is strictly enforced, so if you don't know what you're doing, you'll have trouble finishing it on time.

- For Part 1 there is no backtracking, you must finish the question before you move to the next question.
- You may find it helpful to have paper and pen for some questions.
- If you do not take the test in the designated time, you will receive a grade 0.

What is allowed:

- You will be allowed to use a Visual Studio code for programming questions.
- You can ask for a paper for your rough work if needed.

What is NOT allowed:

- If you are discussing with anyone during the exam, you will receive a 0 grade.
- Auto-proctoring of computer screens is enabled with the lockdown browser; you will be graded 0 if any kind of cheating is noted.
- No Breaks are allowed while taking the exam.
- Every question is different so, if you have copied someone else's answer, you will receive a 0 grade.
- Using the chatbot to solve problems is prohibited; if a single answer is given through chatGPT or other AI tools, you will receive a 0 if any type of cheating is detected.
- Sharing information about the test with anyone is NOT allowed. Both the person sharing and the person receiving the information would receive a grade of 0.

Students must maintain the standards of academic honesty as detailed in the Code of Student Rights & Responsibilities (College Policy 7.1.6). Failure to do so may result in a penalty being assessed.
